PARTY LEADERS ALL AT SEA

Republicans Wildly Trying to Set Sails Right on Treaty Sentiment as Presidential Campaign Approaches—Democrats' Course is Tangled Up With President's Illness and Treaty Defeat.

By Telegraph to The Freeman.

Washington, Nov. 25.—A political tangle, more complex than any leaders have had to face for many campaigns, is confronting the master politicians today. With a presidential campaign but a few months off the campaign managers are casting wildly about for guidance.

In the Republican party it is the treaty of Versailles that is causing all of the worry. Leaders do not know just how the country is taking the senate's action in failing to ratify the peace treaty. They are still at a loss to know whether they shall follow the lead of Senator Lodge, of Massachusetts, and wage a presidential fight on this issue or not. Will Hays, national chairman, is appealing to congressmen and district leaders to inform him of public opinion, in order that when the national committee meets in December the political tangle may be unravelled and the Republican party may make its ways conform to the desires of the people.

President Wilson's illness has caused the tangle in the Democratic party. The president has failed to give guidance to the leaders in their attempts to select a candidate to cast their favors upon. Before the president's illness, it was a foregone conclusion that he would be a third term candidate in the event that the treaty was defeated.

Leaders doubt now that his health would permit this, but they are not taking any steps until the White House has decided upon a course of action.

It may be that the president will select a candidate to go before the country and carry on the fight for the treaty and its principles for him. Until he makes a move the Democratic leaders and candidates can do little more than cherish hopes.

Not the least disconcerting to the political leaders is the formation of a labor party. While there are no present indications that this party will cause great trouble, leaders recognize that because of industrial unrest, there may be sudden changes in political sentiment which might throw the labor vote to the new party. Samuel Gompers and his cohorts have declared war on the present administration because of its course to coal strike and there is grave danger that organized labor may be found in the lists fighting against the Democratic candidate in the next campaign. At the same time, the Republican leaders have rather wavering hopes of capturing the support of those led by Gompers for a Republican congress is threatening to pass anti-strike legislation and win the undying enmity of all organized labor.

A ONE LEGGED DANCING MARVEL

Ralph D. Tompkins, the one-legged dancer who can dance about every step and style of dancing done by a person with two perfectly good legs, will be the feature attraction on Thanksgiving Day at the armory with the McEnelly singing orchestra, and will at the same time sing songs which he has composed in the past three weeks. They are all new and something different.

It is with great expense that Mr. Cook has been able to get this boy wonder to accept this date as he has been playing the Keith time. Mr. McEnelly is noted for giving the people in each town where he plays the best that money can buy and is taking this opportunity of giving Kingston dancing fans a rare treat on this special occasion on Thanksgiving Day, November 27, at the armory.

Smokes Still Going Up.

People who have watched the steady increase in the price of smoking material will be interested in the latest move upward. Cigarettes which have been selling for 18 cents a deck, have already gone up two cents in most places during the past few days and now comes the announcement that they will soon reach a quarter a deck. An announcement a short time ago that by the first of the year there might be a considerable decrease in the price of smoking material gave the smokers some hope, but now comes the announcement that perhaps by January 1st the price will not go down but up.

SHOT PHEASANT FINED $26.50

James Sloniec of North Rondout shot a cock pheasant on Sunday, the slaying being in violation of the closed season provided by the conservation law. Evidently there was a witness to the act as Sergeant Phinney was notified on the telephone, and he in turn told Game Protector Fred DeWitt. DeWitt at once went to Sloniec's home and found the bird just about ready for the pot. He took Sloniec before Justice Kennedy on the plank road, where Sloniec settled for $26.50, after judgment had been entered against him. The defendant was represented by Robert Groves.

Sloniec gave a novel reason for shooting the bird. He said that others in the neighborhood had been shooting at the pheasant lately and he was afraid some one would kill one of his chickens by mistake.

K. H. S. TO SING TEAM TO VICTORY

Final Mass Meeting of the Year Held Monday Afternoon—Harry Dodge Will be on Field Thanksgiving Day.

Monday afternoon the High School Athletic Association held its final football mass meeting of the year. Harry Dodge was present at the meeting to lead the singing and he opened the meeting with the following new song which was written by one of the students:

Weeske-wow-wow
Weeski-wee-weee
Holy-Monkey-i
Hold 'em Kingston High
We will rough house old Troy High
Till she hollers "cut it out."

The walls of the building fairly shook with the enthusiastic volume of the singing, and the cheers led by "Itch" Allen. The A B C jazz orchestra was there with their symphonious, melodious, stringless and jazzy music. President Schoenfeld, of the Athletic Association, presided at the gathering. "Sawbones" gave his little speech and was followed in turn by Webster Crane and Harold Johnson. "Sawbones" then introduced Judge Harry Schirick, who will have charge of the team in the absence of Coach McIntyre on Thanksgiving Day. Judge Schirick is a graduate of old K. A., and also of Cornell University. He has shown a great deal of interest in the team and has been out to the practices, coaching the boys in his able manner.

The Prisma Society announced that it would be on the field on Thanksgiving Day to sell "hot dogs" to the hungry and cold as well.

Mr. Dodge directed another song to the tune of "Smile, Smile, Smile." He wishes everyone who wants to see the boys win against Troy to cut this piece out and come to the game prepared to sing these songs. He will be there to lead you.

The song is:

Grab up that pigskin in your brawny arm, and run, run, run.
Pick up your heels and beat it down the line, hit them hard and strong, K. H. S. will win today, we're sure of that by heck.
So grab up that pigskin in your brawny arm and run, run, run.

The Athletic Association is about $100 behind on its football expenses of the season and would like to make this at the game on Thursday.

Come out to the game and support the High School, which represents your city in athletics.

NEAL APPARENTLY SOLE SURVIVOR

By Telegraph to The Freeman.

Saulte Ste Marie, Mich., Nov. 25.—Captain W. R. Neal, master of the shipwrecked steamer Myron, which sank Saturday night off White Fish Point, is safe today after a battle of more than 20 hours to escape death in the icy storm tossed waters of Lake Superior.

The fate of 16 persons, members of the crew of the Myron, is not known today and rescuers who have been searching the waters in the vicinity of White Fish Point since early Sunday, have given up hope of saving them.

Word of the rescue of Captain Neal was received by wireless from Fort William, Ont., late last night. Captain Neal, in notifying the owners of the vessel of his rescue, inquired as to the fate of his crew dispelling the hope that any of them had been found with the captain.

Neal was rescued by the steamer Franz late Sunday. Members of the crew of the Franz sighted the pilot house of the ill fated Myron. Captain Neal was clinging to the wreckage and was rescued with difficulty.

MCADOO'S WORDS RILE OPERATORS

By Telegraph to The Freeman.

Washington, Nov. 25.—Coal operators are not at all pleased today with the statement made by William G. McAdoo yesterday to the effect that they have made excessive profits.

Thomas T. Brewster, who is head of the coal operators' wage scale committee meeting here, said today:

"We wish the government would follow Mr. McAdoo's proposal and publish the income tax returns of the coal operators, it might help us in the present struggle."

Brewster admitted that in the first six months of 1917 bituminous coal prices were profitable to some operators whose holdings were in the eastern fields. "This was stopped when the fuel administration was created and the government fixed prices," said Brewster. "After the armistice there was a great decrease in demand and prices fell below the government fixed prices. The prices have remained down up to the present crisis except in a few fields where consumers have voluntary bid the prices up."

Brewster intimated that the McAdoo statement might have been made for political purposes and said it was "either with deliberately mischievous intent or with the intention of carrying favor in some quarter."

"McAdoo is a back number," said Brewster, "and he knows that the government has already figures showing what our profits have been."

G. F. KEATOR SUSTAINS STROKE

Well Known Clerk in Guilford Hasbrouck's Shoe Store on Strand, Found Unconscious on Floor by Abram Hasbrouck—In City Hospital.

Granville F. Keator, the well known clerk in the shoe store of Guilford Hasbrouck on the Strand, was found unconscious at 9 o'clock this morning by Abram Hasbrouck as he entered the store. Mr. Hasbrouck called Dr. A. A. Stern, who had Mr. Keator removed to the Kingston City Hospital in the ambulance. About a year ago Mr. Keator sustained a stroke, but had apparently recovered his health.

This morning Mr. Keator left his home at No. 154 Fair street, and came downtown in the trolley car, and opened the store as usual. He appeared to be in his usual health. Mr. Hasbrouck later entered the store and not seeing Mr. Keator called to him. Receiving no answer he walked to the rear of the store where he found Mr. Keator lying huddled in a heap on the floor. Leaning over him Mr. Hasbrouck found that he was unconscious and immediately called for Dr. Stern.

Mr. Keator's condition is reported as serious. He has been employed in the Strand store for a number of years, and is widely known throughout the city.

PLOT TO RESTORE GREEK MONARCH

By Telegraph to The Freeman.

London, Nov. 25.—A number of Greek army officers who are said to be loyal to ex-King Constantine, have been arrested at Athens charged with plotting the assassination of Premier Venizelos and the overturn of the present Greek government, said a news agency dispatch from Athens today.

Some of the officers were reported to have confessed. They will be court martialed.

The foregoing dispatch indicates that the most ambitious conspiracy yet hatched to restore Constantine to the Greek throne had been discovered at Athens. Constantine is at present in Switzerland. His son, Alexander, now occupies the Greek throne.

THE MARY POWELL'S

Early History Recalled by One of Her Crew.

Editor of The Freeman:

I read in The Freeman a short history of the Mary Powell. I was one of the men employed on her from the time that Major Cornell and Daniel Drew bought her of Capt. Anderson. They each owned half of her and when we started up the next spring the report was that Major Cornell had bought Daniel Drew's share. The captain of her at this time was Captain Frost of Haverstraw. The time she ran on the dock above Newburgh she did not break her shaft but broke seven chines and buckets out of the wheel. I think we lost two trips by the accident. The time that Major Cornell bought her from Mr. Van Santvoord, Billy Cornell of Eddyville was captain of her. I was one of the crew until she went to Albany the first time.

Yours,
GEORGE DUNN.

City Tailors Met.

Sunday evening a meeting of the tailors of the city was held, at which time trade conditions in general were talked over, and it was decided by those present to affiliate themselves with a large dyeing and cleaning house to have all such work done. This, they thought, would better conditions and also make it possible to offer better prices to their trade. Among the tailors at the session were Philip Lutzin, Meyer Gasool, Nathan Levine, Bernard Sussin, Meyer Lifshitz, Louis Muller, Harry Schwartz, Hyman Reuben and Mr. Spinkle.

DISPOSITION OF POWELL'S BELL

Day Line Has Plan Which They Believe Judge Clearwater Will Approve in Reply to His Request That it be Given to Kingston.

The article on the Mary Powell, which appeared in Saturday's Freeman, has attracted universal attention, the Powell being regarded with sincere affection not only by every resident of Ulster county, but by the residents of all the counties along the river. When the newspapers first stated that the Powell was to be junked, Judge Clearwater, the historian of this city, endeavored to secure its bell for the city's collection of historical mementoes, and wrote to President Olcott of the Hudson River Day Line, the following letter:

November 1st, 1919.

My Dear Mr. Olcott:

The newspapers along the Hudson state that the Mary Powell is to be dismantled. Among my too many activities is that of historian of Kingston, and I write to ask if peradventure you have no other disposition of it in mind, whether you will not present the bell of the Powell to the city of Kingston to be enshrined among our notable mementoes of the past. This was her home town, and it would seem to be the natural depository of her bell.

With many kind regards, I am as ever,

Very sincerely yours,
(Signed) A. T. CLEARWATER.

To
Honorable Eben E. Olcott,
322 West 75th Street,
New York city."

To which Mr. Olcott replied:

Hudson River Day Line,
Desbrosses Street Pier,
New York, Nov. 3rd, 1919.

My Dear Judge Clearwater:

I have just received yours of the 1st instant.

In our sadness in contemplating the fact that the 'Mary Powell' has, in our judgment, come to the end of the time when she can properly be used for the benefit of the public, we appreciate highly any expressions of desire to keep in pleasant memory, her long service.

It would indeed be most fitting if we could contribute the bell of this famous boat to the city of Kingston. It has already been applied for by others, but we have about decided to make use of it in a way which will give pleasure and interest to even a greater number of people than if it should be 'enshrined among the other notable mementoes of the past' in your historic city.

As soon as the matter is definitely settled, I will take pleasure in letting you know and I feel sure you will commend the project.

My brother William, one of our director, voices my sentiments in saying, 'there is no one whose wish we would be so glad to follow as Judge Clearwater's.'

Yours very truly,
(Signed) E. E. OLCOTT.

ELLENVILLE.

Ellenville, Nov. 24.—The reception held in the M. E. Church lecture room Friday evening for members of the congregation and young people of the Sunday school had a large attendance and a very enjoyable evening was spent together, getting acquainted as the social part was termed. The entire company was received by the pastor, the Rev. Charles A. Dann, and his most estimable wife, although being with the church since April are held in very high esteem by the church people and a large circle of friends. A very pleasing entertainment, as arranged, was given. Vocal selections were rendered by Mrs. Edward B. Kimble, Mrs. John H. Divine, Miss Carolyn Clark and Miss Ethel Lord with Mrs. J. W. Rapp at the piano. Piano selections were given by Miss Ellen Watson, who rendered a fine piano solo, and the Misses May Potter and Bernice Fitzgerald, a duet. Miss Florence White gave a very excellent reading in splendid voice. This was followed by a variety of games. One especially attractive and enjoyed by the crowd generally was a spelling match of a new arrangement. FASHIONS IN FURS FOR FALL-WINTER

Peltry of Every Conceivable Variety Is to Be Much in Evidence.

STRIPE IS VERY DESIRABLE

Borders and Bands of Rich Color in Contrasting Arrangements Are Used—New Shades for Fall.

A poor excuse is better than none, and so milady will comfort her conscience as she digs deep in her pocketbook and purchases one of the fur wraps of the new season with the fact that a cloth suit or coat would cost in some cases almost as much, writes a prominent fashion correspondent.

In truth furs are proportionately about as expensive and the only reason that there is anything within reach is that every conceivable fur is in fashion.

Paris has been astonishingly catholic in this respect of late and under the exigency of the times admitted to the list of possible furs such lesser pelts as Mongolian goat, rabbit, coney,

Taupe divet de laine suit trimmed with embroidery of the same color and taupe raccoon. Hat is of clipped beaver; pheasant tail decoration hangs down.

Manchurian dog and even ordinary house rat. As the scarcity of furs continued through last winter old furs were dragged out of the moth ball closet and worn until there was not a fur left that might not be seen on the streets of Paris.

Fortunately this brought every fur into play, for just imagine the prices if only two or three furs had happened to be in fashion, as in some seasons past.

This is not to say that there are not favorite furs this year, too, but because some of the less expensive furs are in better standing than usual is not an indication that sable, ermine or any of the furs that are always high in price are out of it. Indeed, it is not so much a question of the kind of fur as the manner in which it is made up and the color. Gray furs, squirrel and chinchilla are a shade more in demand than those in other tones.

Tails as a Decoration.

Again, it may be merely a matter of tails, and the wrap or fur piece that can count the most tails is easily the winner.

Probably the rage for tails is traceable to the rage for fringe and any and everything that dangles with every motion of the wearer. Seldom are the tails placed anywhere near the spot nature intended them to be. Placed close enough together to form a semblance of fringe is the approved method, but as this is decidedly expensive the close formation in short spaces is sometimes seen.

The dolman, more in evidence here than abroad, is very apt to show a long fringe of tails that runs from the wrist straight down under the arms to the bottom of the hem, otherwise it may run down the sides and around the back or around the bottom without any at the sleeves.

It is seen used in two ways about the bottom, either placed at the top of the hem falling on top of the fur or about the lower edge and hanging free. An ermine evening wrap by an American house has a tail fringe all above the hem, the little dark tails placed very close and showing up well against the white fur. The sleeves of this wrap are wide and floppy, being supplied with a separate elongated flap like a cape, and the collar, very strangely, is of silver fox.

Stripes Are in Evidence.

Stripes, so very well liked in frocks and suits, find reflection in the furs in the arrangement of the markings, so any fur that has by nature a dark stripe is very desirable for the large wraps that are so frequent.

For this purpose chinchilla and mink are immensely popular and the things that the designers do with the pelts are extraordinary. Where the coat or wrap is ordinarily trimmed with a collar or cuffs of contrasting fur, borders and bands of the same fur with the stripes of rich color in contrasting arrangement are used instead.

On a wrap of mink for evening or afternoon wear the stripes run up and down for the major portion, but a wide band of the fur with the stripes running in the opposite direction is mitred in the front corners and crosses the back at the bottom. The collar on this wrap, which is typically French, is very large and falls over the shoulders and half way down the arms bordered with a horizontal band of mink, bringing the line straight across the figure.

The Parisian with her short skirts wears these all enveloping wraps exceedingly well. Exactly the length of the skirt underneath, the wrap still escapes being cumbersome, particularly as the cut is most apt to be straight and the sleeves rudimentary. Either slits in a cape or very short sleeves in the coats are seen.

Neither American makers nor buyers abroad favor the short sleeves in furs, so the coatees and coats on this side are all offered with regulation sleeves.

Large Collars and Cuffs.

Large collars and cuffs of the longer haired pelts are a feature of many fall suits. Skunk, fox and pointed fox are used and the collars are cut high, giving a luxurious air to the suit. When the use of bands and large pockets is noted it is usually in close fur, as seal, squirrel or beaver. A suit of French blue velours is fashioned with flaring lines from the waist and a vest and high rolling chin collar of squirrel fur. The fur is arranged so that the stripes run horizontally across the front of the vest. The simple tailored suit without a belt and trimmed with large collar and cuffs of fur is sure to be one of the smartest features of the fall openings.

Pervenche is one of the new shades that have been captured for the fall. It is named for the little French flower by that name, which we see once in a while in an old garden in this country under the name of myrtle. It is a shade of lavender which just escapes coming under the head of blue.

Many Browns and Tans.

Duvetyn is not considered as smart as velvet for the fall or winter hat. Also one will note when scanning the collection in the best shops that there are almost no dark blue hats, but quantities of all shades of browns and tans, while feathers are greatly in the majority as trimming. Velvet shirred and plaited very closely and very cleverly handled is sufficient to distinguish some of the very high-priced models.

Two new sport hats of special interest are masterpieces in handwork and

in very different ways. All the vivid colors are used in floss in a turban-shaped affair, and that each shade lose none of its value it is embroidered in a more or less irregular fan shape all by itself and not intertwined with any other color. This hat is also suitable for wear with a strictly tailor-made suit.

The standing collar is stolen from the military uniform.

Miniature Castle From Sandstone.

Carved from soft sandstone, a miniature medieval castle on a California beach faithfully represents a feudal fortress on a small scale. The model building stands on a diminutive hill that strikingly resembles the precipitous elevations upon which such strongholds usually were built. Several styles of architecture are to be seen in the small castle, which was fashioned on a scale of one-fourth inch to one foot by a mechanical engineer who spent his leisure moments on the task.—Popular Mechanics Magazine.

Real Butterflies as Ornaments.

The mounting of real butterflies as millinery ornaments is a work of great skill, and one in which the clever fingers of the Frenchwoman are eminently adaptable. The insect to be utilized is first left for a day upon damp sand in order to soften it and make it easier of manipulation. Both sides of the wings are then covered with a transparent white alcohol varnish, and it is at once backed with sateen of an appropriate shade, according to a writer in Wide World. When dry, this stuff is carefully cut round so as to exactly fit the butterfly, which is then mounted on a wire—a light and graceful object for a bodice.

Origin of Wall Paper.

The Chinese were the first to use paper for decorating or covering the walls of rooms. The Dutch are supposed to have introduced the use of wall paper into Europe in the sixteenth century. The earliest sale known in the United States was in 1785 in Philadelphia, where Charles Harereave advertised the business. A person named Flavin manufactured wall paper in Philadelphia about 1747.

THE COURT AND THE MINERS.

The Federal Courts compelled the calling off of an illegal strike, but can not force the individual miners to go back to work, and so in effect the coal strike continues. Though the officials of the Mine Workers' Union formally complied with the court's order, it is reported that the word was quietly passed to the miners to keep on striking. Whether the said officials did or did not obey in good faith, the miners for the most part decline to go back to work and it looks as if only the pangs of hunger can induce them to resume their labors. Meanwhile to secure other men to take their places is a very difficult undertaking. Such is the present problematical situation, with winter at hand and a widespread, in many cases a desperate need of coal in prospect.

In consequence of this need Director Hines has warned the country of an early but not immediate cutting down of railroad traffic, both freight and passenger, in order to lessen the consumption of coal. The damaging results of such a policy, should it become necessary, are obvious. Mr. Garfield speaks of Federal operation of the mines as a possibility and some of the states are discussing state operation. Meanwhile a searching inquiry into the behavior of the miners' acknowledged leaders is in order. Did they act in good faith and if so have they no authority over the miners? If they have no authority it is useless for the mine operators or anybody to treat with them. The government and the law are put to the test. Nominally they are in command and are obeyed, but actually—to all appearances—they are defied.

A "SPORT" THOUGH A "DRY."!!!!

The popular idea of a "dry" among "wets" is that he is a sour-visaged tyrant eager to tread down the freedom as well as the rights of others and that there is absolutely nothing of the good sport in his makeup, for a good sport is willing to live and let live, good-humoredly takes things as they come, and can cheerfully endure even a practical joke at his own expense. Most "wets" will therefore be surprised to learn that "Pussyfoot" Johnson has been saluted as a "game sport" by the pettest of Britishers, who, after mobbing him, have now decided to give him a dinner as well as a respectful hearing—all because he proved himself to be "a game sport," than which nothing is so sure of British admiration.

When Johnson, the American prohibition campaigner, was mobbed at one of his London meetings, something struck him in the eye and his eyeball was ruptured. Instead of raging and denouncing, he treated the whole affair as a joke and good humoredly said he bore the rough crowd (mostly college boys) no ill will. In consequence he became the most talked of man in London and the Lord Chancellor referred to the incident in a public speech. As for the college boys concerned, they announce that as soon as "Pussyfoot" is out of the hospital they will give him a dinner as a mark of respect as well as by way of atonement. The British thought "Pussyfoot" was only a meddling prohibitionist, but finding to their surprise that he is a "game sport" they like him.

In some sections of the state the boys and girls are skating already. When it comes to good, clean, wholesome and invigorating sport there is nothing that can beat it. It is good for the mind as well as the muscle and the chances are that had we done more skating and less cabareting we would have been just as well off mentally and physically. Skating, like many of the other wholesome pleasures that used to be popular, fell off somewhat but the outlook for a return is bright. This is more for which we can be thankful if we have the brains.

Every American citizen will have something for which to be thankful this year, even in the face of the reported unrest and disturbance. That he is an American citizen is something for which he should give thanks from the bottom of his heart. No matter what faces us, as American citizens we will be able to cope with it satisfactorally and for the greatest good for the greatest number. There is no question about this and the true American, even though he will admit that there are problems ahead, will not fear the result. Facing big problems has made us what we are and we are ready again to meet the biggest that may come. This is something for which to be thankful, for it permits us to rest at night knowing that our system of government will stand the test. Of that there is no doubt.

"Why was it necessary for you to add anything to the voluminous and exhaustive remarks already offered on the subject?" "It wasn't positively necessary," answered Senator Sorghum. The "Autometric" Carburetor

YALE

Made by The Yale & Towne Mfg. Co.
STAMFORD CONNECTICUT

What is a sweet running motor?

IS it one that runs along with a smooth even flow of power,

Like this? !

Or one that skips, backfires, vibrates and shakes itself, the steering post and you,

Like this? !

An "Autometric" Carburetor on your car will reduce engine vibration to a minimum.

It automatically feeds the correct mixture for *all* speeds for *any* car. And the mixture is fed to the cylinders as a hot, dry gas. Not as a partially atomized spray or mist.

Each cylinder gets just the amount of fuel it can use *and no more*. Each cylinder gets the same impulse.

That's one of the reasons why the "Autometric" Carburetor is a product worthy of bearing the trade-mark "Yale."

Other reasons are that with an "Autometric" Carburetor you get more power and greater flexibility of control, up to 30% more mileage from your gasoline, *at least* 20% less gear shifting.

Step in and let us arrange to have your own garage man put an "Autometric" on your car on approval. Then you can prove to your own satisfaction what real driving comfort is.

Dwarf Tree Nearly 200 Years Old.

A species of Greenland fir, believed by scientists to be nearly two hundred years old, is growing on the Shenk farm in Ballfrog valley, near Bumbridgetown, Pa. The unique tree is less than two feet high, but its branches have a spread of 15 feet and a circumference of about 60 feet. It resembles a collection of shrubs, and is one of the largest specimens known.

Causes of Memory's Stirring.

"How I love the smell of a wood fire," is a common exclamation. Now, there's nothing delightful about smell of wood smoke, but, oh! the memories. The lit under spring in grandmother's bureau drawer did much toward keeping her memory green. Returning seasons redolent with the fumes of bonfires and fruit are responsible for many a homesick hour.

SUPERVISORS PROTEST NEW 'PHONE RATES

By a resolution adopted at the session of the board of supervisors held Monday evening at the court house, the county legislature went on record in opposition to the announced intention of the New York Telephone Company to raise its rates in Ulster county on December 1st. County Attorney John W. Eckert was empowered to take such action as he may deem necessary to oppose the putting into effect of the proposed new schedule.

Chairman Lounsbery called the session promptly at 7:30 o'clock and 31 supervisors answered to the call of the roll by Clerk Henry R. DeWitt.

The annual report of Frederick G. Traver as district attorney was read showing receipts in fines of $200, all of which had been turned over to the county treasurer. Of the $500 appropriated by resolution by the board of supervisors for expenses for the district attorney's office there was a balance of $162.26. Referred to the Committee on County Judge and District Attorney.

Sheriff Wright J. Smith reported receipts from January 1 to October 31, $63.40 from state comptroller for expenses taking prisoners to Dannemora prison. Referred to Committee on Sheriff's Accounts.

A report from the state charities on the condition of the Ulster county jail, made June, 1919, was read and filed.

The State Prison Commission called attention to the neglect of the supervisors in installing a separate rom for storage of vegetables at the jail and the failure to employ a civilian cook, and asked that immediate action be taken. Filed

The report was read from the State Board of Charities as to inspection of the Ulster County Poor House, which was placed in Class 1 as to administration and Class 2 as to plant. Filed.

The following resolutions were offered and were laid over under the rule:

Supervisor Lounsbery—That there be levied on the town of Rochester $100 for support of the poor.

Supervisor LeFever—That there be levied on the town of Marbletown $150 for the support of the poor. That there be levied on the town of Marbletown $238.14 to pay note and interest in the Huguenot National Bank, due February 10, 1920.

Supervisor Wilklow—That there be raised on Highland fire district $400 to be used for fire purposes. This is balance of $2,000 voted by town board, of which $1,600 has been acted on by resolution of the board.

Supervisor Sagendorf—That there be levied on the town of Woodstock $100 for the support of the poor. That there be levied on the town of Woodstock $1,500 to be used to purchase crushed stone, as per vote of the town board.

Supervisor Saxe offered a resolution that the state commission of highways be requested to fill up the shoulders alongside the concrete roadbed of the Hurley-Kingston highway so that the shoulders and concrete be leveled, as the shoulders now are about seven inches lower than the roadbed. Adopted

Supervisor Saxe moved and it was adopted that the board of supervisors protest the raise of rates as per schedule filed by the New York Telephone Company, and the county attorney is directed to filed a protest against such increase and take such action that is necessary to be taken before the state public service commission at the hearing to be held.

The following resolutions were called up and adopted:

Supervisor Lounsbery—The report of the committee on rights of way for state highways, and that there be levied $2,130.40 on county to reimburse the county treasurer.

Supervisor Snyder—The approval of plans for Hurley-Kingston highway and that there be levied on the county $20,723.41 to pay for additional cost for construction.

Supervisor Terwilliger—To levy on town of Shawangunk $5,450 to pay bridge bonds due in 1920. To levy on town of Shawangunk $2,112.50 to pay notes in Ulster County Savings Bank, due in 1920. To levy on town $4,914.50 to pay notes and interest due Wallkill National Bank in 1920.

Supervisor Coons—To levy on town of Shandaken $5,582.50 to pay notes and interest due Rondout Savings Bank in 1920. To levy on town of Shandaken $1,140 to pay note and interest due Kingston Savings Bank in 1920.

Supervisor Young—To levy on town of Marlborough, exclusive of village, $1,086.85 to pay highway bonds and interest due in 1920. To levy on Milton lighting district $750 to pay for street lighting.

On motion of Supervisor Saxe, the board of supervisors adjourned until Tuesday, November 25, at 7:30 p. m.

The House of Kuppenheimer Clothes—Phone 983-J

KUPPENHEIMER CLOTHES ARE WORTH WAITING FOR

WE simply can't get enough Kuppenheimer suits and overcoats to supply the tremendous demand this season. When we do get them, they go out before we can build up the variety that we should like to maintain.

The reason they are so much in demand is obvious. When men pay the price that is necessary now-a-days, they want to be sure that they're getting full value for every dollar. They know that they can depend on full value in Kuppenheimer Clothes.

We may have just the right Kuppenheimer suit or overcoat here for you now. If so, you'd better come after it. If we haven't, you'll surely agree that they're worth waiting for a little while.

BOXING TALENT AT NEXT SHOW

Fourth Smoker of Kingston Athletic Club Will Be Held Tuesday, December 2—Some Fast Boys Matched Up—In Griffiths's Hall.

The fourth smoker of the Kingston Athletic Club will be staged in Griffiths's Hall on Hasbrouck avenue, Tuesday evening, December 2. It was expected to hold it the latter part of this month, but the boys the club desired to match could not come until the first week in December.

The boxing card for the fourth smoker looks to be the best the club has offered so far. There will be three six round bouts, and a four round preliminary between two local boys. Four of the fighters at the next smoker have appeared at the preceding smokers, when they made a decided hit with the fans. The four are Al Cook of Newark, Willie Rose of Newburgh, Young Jim Jeffries of Newark and Young Mickey of Newark.

In the first six round bout Al Cook of Newark will step it with Willie Rose of Newburgh. Both boys are fast, and it should prove a rattling good bout.

Young Jim Jeffries who has already staged two bouts with Willie Rose will be matched up with a fast boy, whose name will be announced later. They will go six rounds.

Young Mickey, who made such a hit at the first smoker, boxes six rounds with Ray Lucas of Schenectady. Lucas will have to extend himself with Mickey, who is a clever and fast fighter with a punch in either fist.

The club has purchased chairs and there will be seats for everybody. At the last smoker it was impossible to get enough chairs. Tickets for the bouts December 2, may now be obtained at the usual prices.

Almost Perfect Time.

Our day—the sidereal day of the apparent motion of the stars—is 3 minutes 55.91 seconds shorter than a mean solar day. Considering clock gearing, a French astronomer calculates that with four wheels having 139, 330, 317 and 314 teeth sidereal can be converted into mean time with the loss of only one second in eight years, and that with wheels having 188, 405, 503 and 227 teeth the error can be reduced to only one second in a period of 249 years.

How To Save Your Automobile And Cut Down Repair Bills

Below are 12 reasons why heating your Garage this winter will save your Car and greatly reduce your repair bills.

Coal-burning Self-regulating Hot Water

WASCO HEATING SYSTEM READY-TO-SET-UP

Several Sizes For 1- to 10-Car Garages

1. Eliminate Frozen Radiators.
An unheated garage means springing the radiator, cracking the water jacket of the engine, freezing the water and breaking the pump. Anti-freeze compounds are liable to evaporate, especially if the engine overheats.

2. Save the Engine.
Gasoline cannot vaporize when the cylinders and carburetor are cold, and starting is difficult. The engine sputters and kicks on half the cylinders and finally, after much gasoline and electricity have been wasted, it starts.

3. Reduce Carbon Deposits in the Cylinders.
To start a cold engine there must be a rich mixture of gasoline and air the first five minutes. This increases carbon deposits.

4. Save the Bearings.
Oil becomes thick and sluggish in a cold garage. This results in the bearings scoring before becoming warmed by the friction. When starting a cold engine, the knocking means more damage to the bearings.

5. Save the Battery.
The storage battery, being a chemical machine, and as chemicals act very slowly when cold, the battery cannot take full charge. The extra load put onto the battery in starting the cold engine soon discharges the battery beyond the danger point. "Over charging" occurs and this is responsible for most all battery troubles. The chemicals become useless and fall off the grids. The battery becomes weak and finally must be replaced.

6. Save the Car Finish.
In an unheated garage, moisture slowly accumulates under the varnish and freezes, which cracks and spoils the varnish. This does not happen in a warm, dry garage. The warmth and dryness preserve the finish and upholstery of the machine. Refinishing a car is expensive.

7. Save the Tires.
If the garage is not warm and dry, moisture gets into the fabric of the tires through cuts. This moisture freezes while the car is not in use and loosens the fabric and eventually ruins the tires.

8. For Easy Cleaning of the Car.
Mud and snow freeze to the car in a cold garage. When washing the car in an unheated garage, the water freezes on, which spoils the finish. The mud and snow melt off the car in a garage that is heated.

9. For Comfort in Oiling, Altering the Batteries, etc.
It is a pleasure to attend your car in a warm garage, but not when the fingers are cold and numb and the feet almost frozen.

10. Prevent Colds and Sickness.
Working around the car in an unheated garage results in colds and grippe. Heat your garage and save doctor bills.

11. For Safety.
The damper regulator of the WascO Garage Heating System allows the air in the garage to be drawn up the stove pipe. This creates a circulation through the garage and prevents possible accumulation of gasoline vapors anywhere. Explosive mixtures are more liable to form in a cold garage, whereas they are diffused in a warm garage, especially when the air is circulated as with the WascO Heating System.

12. For a Quick, Sure Start Any Time.
To the office early—to the theatre on time—to keep an appointment—to catch a certain train—you will be sure to be there if your garage and car are kept continuously warm with a coal-burning, self-regulating WascO Heating System.

Brains Not Their Strong Point

Even an oyster has a brain of a sort; and a clam likewise. The brains of fishes are very inferior, as compared with those of mammals, but the optic lobes are enormously developed, because finny creatures, to get the food they need, must be able to see well in dim light under water. Reptiles generally are very stupid creatures, and so it is not surprising to find that their brains are remarkably small. That of a 12-foot alligator is no bigger than your thumb.

Whistling for Wind.

Everybody is familiar with the old superstition of sailors that, to bring a favorable breeze, they must whistle during the calm. From the remotest times there seems to have prevailed a belief that libation or sacrifice would placate the storm spirits and induce them to permit the vessel to proceed unmolested on its course. Russian sailors have been known to pour oatmeal and water over a rocky promontory in order to obtain a wind favorable to their designs.

Quebracho Bark Valuable.

Quebracho bark, one of the chief exports of the Argentine, will tan leather at least three times as fast as the bark of the oak or the hemlock, and in less than ten years fortunes have been made by investing in quebracho lands. Nearly 1,000,000 tons of the wood, or the dry extract, are sent to the United States and Europe annually. The growth of the tree is of the slowest and it is estimated that 1,000 years is required for it to reach maturity.

BLUE MOUNTAIN SHEEP.

"Dear Mr. Blue Mountain Sheep, you are a handsome fellow," said Mrs. Blue Mountain Sheep.

"And you're a handsome creature, too," said her mate.

"I wouldn't like to be ugly," she said.

"You need never worry about that," he answered her. "You most certainly could never be called ugly."

"Well, I hope not," she said, "for it would not be nice to be ugly when I have such a handsome mate."

"One of the reasons I want to be so handsome is to look well beside you," he said.

"That's a noble reason," she answered, "and it shows that you have not been spoilt by your beauty."

"Neither have you," Mr. Blue Mountain Sheep answered. "I have heard of creatures who think they are so beautiful that they can be horrid and selfish. They may be beautiful but they seem to think that is all they need be. Now you are not that way."

"Neither are you," said Mrs. Blue Mountain Sheep. "We certainly got out of bed on the right side this morning."

"Oh, dear! Oh, dear!" said Mr. Blue Mountain Sheep, "whatever do

An Exquisitely Sweet Expression.

you mean? Have you a bit of a headache, or a fever? What is the matter with you?"

"Nothing, nothing," laughed Mrs. Blue Mountain Sheep.

"What do you mean then?" asked her mate.

"When a creature says she gets out of the bed on the right side it means that she got up feeling happy and pleasant and all of that."

"Then it doesn't mean that you think you got out of a real bed, does it?"

"No, no; don't be worried; I'm not losing my wits," laughed Mrs. Blue Mountain Sheep. "It's a saying, that's all."

"Ah, I see," he said. "I see; it means people and creatures begin the day right. It means that the day is supposed to begin for creatures when they get out of bed so they start the saying at that point."

"Right," agreed Mrs. Blue Mountain Sheep. "Do you know I heard Mrs. Arcal Mountain Sheep admiring her mate the other day and I had to laugh?"

"Did you laugh?" asked Mr. Blue Mountain Sheep. "I suppose you did as you said you had to."

"Yes, I had to and I did," said Mrs. Blue Mountain Sheep.

"And pray tell me what was the cause of your mirth?" asked Mr. Blue Mountain Sheep.

"I beg your pardon," said Mrs. Blue Mountain Sheep, "but did I hear you correctly?"

"I asked you what was the cause of your mirth," said Mr. Blue Mountain Sheep.

"Yes, I heard correctly enough," said Mrs. Blue Mountain Sheep. "But the truth is, I don't understand."

"I asked you what was the cause of your mirth, which means that I would like to know what was the reason for your laughter. Mirth means fun and laughter and such little things."

"Oh, I see," said Mrs. Blue Mountain Sheep. "Well, I had to laugh when I heard Mrs. Arcal Mountain Sheep—you know them, or at least you knew who they were when we used to live in India—praising up her mate and telling him how beautiful he was.

"I had to laugh, because goodness, old Arcal is nothing compared to you. You have such an exquisitely sweet expression. Your horns, which are so large and which point in such an interesting way, are really lovely.

"And your beauty is especially fine because you're small. It is true you aren't as strong as old Arcal, but you're more dainty and delicate and far more stylish. Oh, far more stylish. I did have to laugh when I heard Mrs. Arcal praising him up."

"I thought it was funny when he praised her," said Mr. Blue Mountain Sheep, "for she isn't half as graceful and lovely as you are, Lady Blue Mountain."

PYTHIANS HONOR SERVICE MEN

William M. Dann, Who Died in France, Eulogized — The Seven Other Knights Receive Certificates of Honor—High Officers of Order Present at Banquet and Ceremonies.

Seven men, members of Franklin Lodge, No. 37, Knights of Pythias, were the honor guests Monday evening at the welcome home reception given by the members of the lodge at their castle hall on Wall street. These seven men over a year ago when the country sent out her call for men, answered the call and came home from service in the army and navy but a short time ago, again to resume their old duties after faithful service for their country. One member of the lodge was not present, a member of Franklin Lodge who marched away, a companion of the seven who were present Monday evening. This one member was William M. Dann, who died while in the service of his country.

At the session of the lodge the Rev. G. F. Snyder, former pastor at Port Ewen, and a member of the Knights of Pythias, delivered the memorial address and tribute to the service of William M. Dann, who died at Camp de Souge, France, on September 29, 1918, of bronchial pneumonia, following an attack of influenza. Letters were read from Capt. Owen, Battery E, 334th Field Artillery, in which William Dann served, also letters from Chaplain Howard and Lieut. C. E. Moodey, of the 334th F. A., giving the circumstances and extending sympathy to the parents of the young man who gave up his life for his country, and who now rests in the American Cemetery at Margtinas, near Camp de Souge, along with a large number of other American youths who died for their country.

The following very appropriate poem was read by Mr. Snyder:

For Our Dead.

For you, our dead beyond the sea,
Who gave your lives to hold us free,
By us, who keep your memory,
What can be said?

We cannot sing your praises right
Low heroes of the endless fight,
Whose souls into the lonely night
Too soon have fled.

We can but honor, cherish, bless
Your sacred names; no words express
The measure of our thankfulness
For you our Dead!

—SIR SIDNEY LOW.

Certificates of honor of the Knights of Pythias were then bestowed upon the seven members of the order who were in the service and returned, by County Judge George Addington of Albany county, grand chancellor of the order.

The service flag of Franklin Lodge, was demobilized of the stars representing the men who had gone away from the organization. The seven members to whom the welcoming hand was extended last evening by their brother Knights are: Silas T. Beatty, Francis T. Elston, William H. Stork, Henry A. Pekin, George H. Clark, George A. Wilson and George F. Kaufman.

Following the exercises the meeting of the lodge was brought to a close and the assembled Knights and their guests of honor were served a banquet, ably assisted by the Pythian Sisters who had prepared the good things while the lodge had been in session.

W. Norman Conner, toastmaster, introduced Mayor Palmer Canfield, Jr., Grand Vice Chancellor, who gave the address of welcome. Mayor Canfield briefly extended a welcome back to the members of the lodge who had gone away and after doing their duty and doing it well had again returned to the lodge. Mayor Canfield said the boys had been in the hearts of each member of the lodge when they had gone away and were now, as stars they had gone out from the city and lodge, either to set in the west or to be returned to their homes, one of these stars had set in the west, William Dann had not been returned, but seven of the eight had come back home. He spoke of the growth of the Knights of Pythias order in the past and of the growth which was to be made in the future.

The Rev. Harry S. Coruford, a former resident of the city and a member of Franklin Lodge, in a brief talk told of his interest in the order and of the pleasure to him of returning to Kingston where he will make his home.

Daniel W. Benton of Port Ewen spoke on the "duty" which every man should do regardless of any fear of the results, as duty was right and right need never fear.

Arthur M. Rifenbary, with Mrs. Ralph Glendenning at the piano, gave a very much appreciated solo, again being called up at the close of the exercises for another selection.

Charles W. Endel, past grand chancellor of New York city, gave a very interesting talk, referring to the present unrest which is showing in some parts of our country. He spoke of the time when the eight men of Franklin Lodge marched away from Kingston, "there was a war then and there is a war going on here now, but we need not fear the outcome with such men as these of Franklin Lodge, fighting for the right."

Judge George Addington, grand chancellor, spoke on "Our Boys" giving a most interesting talk on the war and the results which it would bring about. He spoke of the sudden ending of the war after the United States entered the fight. "We did not win the war, but we wound it up." He spoke of the spirit and dash with which the American youth entered into the battle and of the ending which they had brought so soon. Many men had been lost but these men had not died in vain. "Men who die in a good cause do not die in vain." He paid a glowing tribute to Colonel Roosevelt and predicted an early end to the present discontent and unrest which exists now in many parts of the country. "Pythianism is Americanism," said Judge Addington, "and we need not fear the stability of our government with such Americans as those who have gone away and fought for America and are now returned to you."

Morris Drucker, grand prelate, spoke briefly on "Pythianism" and the work which the order is going to accomplish. He has set a standard of 50,000 members by 1921 in New York state but already the 30,000 mark is nearly reached and now the goal is 50,000 members by 1921. Mr. Drucker presented each member with a small button bearing the slogan, "50,000 by 1921" but stated that when the 50,000 mark was reached if each member would return the button he would have the reading changed to read "50,000 by 1921," and he felt sure that the mark would be reached.

The exercises were brought to a close with "The Star Spangled Banner" sung by the entire assemblage.

General von Plessen
INTERNATIONAL.

General Oberst von Plessen, former military aid to the ex-kaiser, and a staunch militarist, is one of the few of "the old guard" who still reside at Potsdam and continue to wear the war-time uniform. This photograph of von Plessen was made in Berlin recently as he arrived to testify before the Reichstag committee investigating the conduct of the war. The general appeared with all his honor ribbons and even displayed his Iron Cross. Hindenburg and Ludendorff appeared before the committee in civies, having laid aside the war uniforms.

GRIZZLY IS FAST VANISHING

Final Disappearance of Really Noble Animal Will Be Regretted by All Who Knew Him.

The grizzly bear has been known to the white race little more than a century. Lewis and Clark wrote the first official accounts of him in 1805 and he was first discussed publicly in 1814 by Gov. De Witt Clinton in New York city. Guthrie's geography says that he was named Ursus horribilis by Naturalist George Ord in 1815. Fossil records indicate that the grizzly is of Asiatic origin. He appears to have come into America about a million years ago over one of the pre-historic land bridges that united Alaska and Asia. Bears and dogs are descendants from the same parent stock. The grizzly bear never eats human flesh, is not ferocious and fights only in self-defense. He leads an adventurous life, is a born explorer and ever has good wilderness manners — never makes attacks. The numerous cases in which the grizzly has been made a pet and companion of man, where he was thoughtfully, intelligently raised, show him to be a superior animal, dignified, intelligent, loyal and uniformly good-tempered. Not a grizzly exists in any of the four national parks of California, and that animal, once so celebrated in that state, is extinct there. He is also extinct over the greater portion of the vast territory which he formerly occupied, and is verging on extermination.

The Radish.

Who disdains the humble radish? Certainly not Miss Tyrrell Rielle, a young French woman who has chosen the radish as the subject of her theme for the doctor's degree of the University de Paris. The radish, it now turns out, is one more mushroom of the vegetable world. Besides its edible qualities it wears the halo of tradition. Hence the enthusiasm of Miss Tyrrell-Rielle. She has discovered, after arduous research, that the radish was known of the Egyptians and of the Chinese. As yet research has not provided any clue to the whereabouts of the radish from the early times to the beginning of the fifth millennium, when it entered France in striped coats of black, of white, and red. It must be left to Miss Tyrrell Rielle, or others of the same indefatigable curiosity to discover.

Biscuit of Ancient Origin.

The biscuit is in reality the oldest form of bread. Nobody knows when the process of fermentation was introduced in baking, but it is certain that the making of simple cakes with flour and water and without yeast—that is, biscuits—dates from the highest antiquity, for such biscuits have been found among neolithic remains. The Greeks and Romans had advanced from the primitive form of bread, but they baked biscuits for special occasions for use in military campaigns and on voyages. The Romans called this form of bread "panis nauticus" while the Greeks used for it a term meaning "bread twice put into the fire." The word biscuit means, of course, twice baked, but the present practice of so double baking has long been abandoned.

BATTLE BETWEEN TOOTH PASTE

Who Will Settle the Argument: Let Your Druggist Be the Referee.

It must be perplexing to the reader to decide which of the claims are logical and which are unsupported when he reads the glowing advertisements of the various manufacturers of Tooth Paste.

One maker's product lays stress the flavor. Another claims to "remove the film." Still another leaves a "clean feeling." Another calls attention to the teeth of wild animals and is reputed to be highly antiseptic.

After reading all carefully, the intelligent person decides to refer the matter to the court of last resort for the true answer. The druggist is the one whom the physicians and dentist relies upon to furnish expert advice on the action of chemicals. Why, therefore, is he not the person for you to trust? Long years of patient training and a knowledge of the relative value of the various ingredients in all chemical products have fitted him to express an opinion. He knows because he is qualified to know.

Something over 28,000 druggists and physicians in this country belong to national association known as the American Druggists Syndicate. The national formula committee of this great association met annually in conference for 10 consecutive years in order to select the best formulas for household remedies to be manufactured in their own great laboratories maintained at Long Island City.

One of their well known preparations is A. D. S. Peredixo Tooth Paste which has been endorsed by leading dentists in every state of the nation. Your druggist will tell you that it enjoys a fast repeating sale and its claim as a perfect product is briefly stated when he tells you that "besides doing all that any other tooth paste can do, Peredixo whitens like peroxide."

Large production of this remarkable preparation enables you to still purchase the large tube at the old price 25 cents. Try a tube today and be convinced.

LABOR SUPPORTS THRIFT MOVEMENT

Leaders Call on Unions to Invest in Treasury Savings Certificates

Organized Labor in New York State and the twelve northern counties of New Jersey has pledged its support to the Thrift Citizens' Movement that has just been inaugurated by the Government Loan Organization. James P. Holland, president of the New York State Federation of Labor, and Henry F. Hilfers, secretary of the New Jersey State Federation of Labor, have both assured the officials of the organization that labor will give solid backing to the intensive effort that has been launched.

"We have called on our membership to set an example to other people in their communities by investing in Treasury Savings Certificates," said Mr. Holland. "You will find that labor will play a prominent part in America's Peace Offensive and will help in the present movement to alleviate the present unsettled economic conditions of the country."

Many labor organizations in New York and New Jersey have already set the lead for the membership and have decided to invest part of their general fund in Treasury Savings Certificates. Others have been called on by the prominent labor leaders to consider the question at their next meetings and to ask their members to individually subscribe for the new security that has just been placed in the market by the United States Treasury Department.

THOUSANDS OF NEW LEADERS IN THRIFT CITIZENS' MOVEMENT

Loyal Residents Of New York and New Jersey Continue Patriotic Support Of Government.

More than 2,000 residents of New York State and Northern New Jersey responded during September to the appeal of the Government Loan Organization, to become leaders in the Thrift Citizens' Movement to encourage as many people as possible to practice thrift and invest their money in Treasury Savings Certificates.

These patriotic men and women purchased $750,000 worth of the new securities, thus proving that they personally believe in putting part of their earnings in the Certificates, that mature January 1, 1924. They were representatives of all walks of life. Some subscribed $1,000 Treasury Savings Certificates, sending checks to the Government Loan Organization. Others took certificates of the $100 denomination. Many expressed regret that the law allows the investment of not more than $1,000 in these certificates.

It is the intention of the 2,000 leaders to urge that wide distribution be given to Treasury Savings Certificates during the next two months. The securities can be obtained by application at the Federal Reserve Bank, 120 Broadway, New York City, and at any bank or trust company in New York State and Northern New Jersey, that has been designated as a sales agency.

Post Offices of the first and second-class throughout the Second Federal Reserve District have on sale only the $100 Treasury Savings Certificates, while banks carry the security in both denominations. The cost this month is $844 for $1,000 Certificates and $84.40 for those in denominations of $100. Prices advance December 1 to $846 and $84.60, respectively.

CHILDREN SAVE TO BUY CERTIFICATES

At a recent meeting of 350 children, members of a corn club, at Perdue University, it was found that 58 of the children owned Liberty Bonds, 105 had War Savings Stamps, and practically every child had bought Thrift Stamps. Eighty-five owned pigs, 46 owned calves, 26 owned sheep, and 62 poultry. All pledged themselves to buy Thrift and War Savings Stamps, and later convert them into Treasury Savings Certificates.

IT'S AN ILL WIND—

Folks down in Texas have made use of a cyclone to boost the sale of Treasury Savings Certificates and help along the Thrift Campaign. The cyclone wasn't planned, of course, but when it came through Mineola and began shifting personal property about, things just naturally seemed to fall in line for the good of the Savings Movement. A book of War Savings Stamps, belonging to Hilary Harman, of Mineola, was picked up in the gale and whirled fifty miles away to Talco, Titus county. It was found by E. B. Dismukes, who lives near Talco, and mailed back to Harman. If Harman had not put that money into stamps, of course, there would have been no way of telling to whom it belonged. You can make up your own moral for this incident. Likewise, make a resolution to invest in Treasury Savings Certificates.

Woman's Right.

Frank and Lucille were playing at keeping house and soon a disagreement arose over money matters. Lucille appealed to her mother to settle the question. "Mother," she asked, "a woman should always carry the pocketbook, shouldn't she?"

SYMPHONY MUSIC BROUGHT HIM HERE

To the Editor of The Freeman.

Dear Sir,

As I and my family are now residents of Kingston and largely because of your popular Sunday Symphony Concerts, I want to express my appreciation of the same. Wishing to reside out of New York city and having retired from active practice, I investigated several places about the size of Kingston, making week-end visits, for I did not want to take my family to a town where, after automobiling days, there would be absolutely no way of spending Sunday afternoon for the young people. I happened here in time to attend your first popular Symphony concert in your handsome and up-to-date Keeney theatre, and that settled the matter for me. My family accompanied me to the second concert which took place last Sunday and they quite agree with me that this is a city of unusual attractiveness as to its general appearance and even more is it a city of exceptional cultural and educational as well as entertainment advantages. My only hope is that after the weather becomes colder these popular concerts will be weekly occurrences instead of coming only once a month as now. And we are impatiently awaiting the full symphonic concert which will be given in January. To have such an aggregation of musicians, some of them so youthful, and such a conductor is the good fortune of mighty few cities the size of Kingston and we are glad we came here.

Thanking you for the courtesy of the space for this letter.

I am,

Yours very truly,

"Retired Professional Man from New York."

Forty-hour Devotion Close.

The Forty Hours' Devotion, which has been continuing in St. Mary's Church since Sunday, will close this evening with solemn benediction. The concluding sermon will be preached by the Rev. Father Alexis, who has been conducting the exercises. The sermons have been of an unusually high order and eloquently delivered. The exercises have drawn large audiences at the morning and evening services. A large procession of men will solemnize the exercises this evening. On Thanksgiving a Solemn Mass will be offered at 8:30 o'clock in the morning, when an appropriate sermon will be delivered.

WEBSTER CASE ON CIVIL LIST

There are 150 civil cases on the calendar of supreme court which will convene at the court house on Monday afternoon, December 1, at 2 o'clock, Justice Nichols presiding. There are five preferred cases among them, an action in which M. F. Webster, as administratrix is plaintiff against the Kingston Consolidated Railroad and another is defendant, being a negligence case, growing out of the death of Grove Webster, Jr., who lost his life when a West Shore locomotive struck a trolley car on the Broadway crossing, Police Officer Boyd and others losing their lives through the same accident. Van Etten & Cook are the ...s for the plaintiff; William D. Brinnier and Amos Van Etten for the defendants.

There are also nine cases in which Hugh Kelly is plaintiff against nine different insurance companies to collect on insurance policies, the defense alleging incendiarism. Among other actions is one brought by Charles R. Abbott of Saugerties to obtain damages for seduction of his daughter from Earl D. Storms. The defendant was arrested some time ago and is under indictment for abduction. George F. Kaufman is attorney for plaintiff, and William E. Woollard of Albany for defendant.

CABINET GETS JENKINS DATA

By Telegraph to The Freeman.

Washington, Nov. 25.—The whole Mexican situation, involving the Jenkins case and other affronts to the United States, was the subject of a lengthy discussion in the cabinet today.

Secretary of State Lansing laid before the members the latest information which has come to the department in the situation. The secretary after the meeting declined to discuss what had transpired or to state whether a definite policy was formed.

William O. Jenkins, the American consular official, is still incarcerated in a Mexican penitentiary and his health is said to be suffering from the confinement, according to advices reaching Washington today.

One of the Family.

We had a beautiful outdoor wedding for our sister on a September morning. Elaborate floral arches, altar, etc., had been arranged. Our guests were assembled. From out the house came the procession, the minister leading, the bride and bridegroom with their attendants, when to the merriment of all, our family dog joined in the procession, walking along slowly as the rest, and he laid down by the altar during the ceremony.—Chicago Tribune.

NO CABINET COAL DECISION

By Telegraph to The Freeman.

Washington, Nov. 25.—The cabinet spent three hours today discussing the coal situation and failed to agree on any proposition for settlement of the wage controversy.

"It is not settled yet," said Secretary of Labor Wilson, leaving the meeting. "We will meet again at 3:30."

Dr. Garfield, fuel administrator, and Attorney General Palmer both stated that the discussion had not yet reached a stage of settlement and they refused to make any statement as to the discussion.

It is understood that the cabinet was engaged in a lengthy debate over the amount of increases that should be granted to the miners and the part that the public should bear. Both Attorney General Palmer and Director Garfield insisted that the burden should not be placed on the public.

Living Costs Have Increased 73 Per Cent Since July, 1914

Food costs 90% more than it did five years ago.

Clothing is 100% higher.

Fuel, heat and light have advanced 57% in price.

Shelter, insurance, house furnishings, education, amusements, sundries—all the general items that make up the family budget have increased in price. These figures are taken from the Research Report of the National Industrial Conference Board.

Living costs are 73% higher than they were half a decade ago. Everyone knows this. And yet sometimes people forget that this 73% increase hits the Telephone Company just as much as it does other people.

We have had to increase the pay of our workers to meet the 73% higher cost of living. The average cost ofthe raw materials used in our telephone plant, this average being based upon the prices charged for more than four-fifths of the materials used, is 83% higher than it was in July, 1914. Copper costs 72% more; lead costs 62% more; telephone poles 81% more,—and so it goes all through the list.

The cost of telephone service to you has not risen in proportion to these increases. Your telephone service costs much less than it would if the rates had been raised in keeping with the increases in wages and the prices of the things we must have in order to supply adequate service. The reasons for this situation are three: Rigid economy, improved methods and appliances and the conduct of our business upon the basis of the revenue derived from the state as a whole.

The time has come, however, when we must secure additional revenue in order to provide good telephone service. This can only be obtained by increasing the rates for service. New rates, therefore, become effective December 1, 1919.

Don't Take Gas Costs So Seriously

Remedy fuel expenses instead of *raving* about them. You can any time you take a notion. It's all up to *you*.

You have the means at hand. It is for you to choose—whether you want to continue paying heavy travel tax or *not*.

Doesn't make a nickel's worth of difference what year your car came from the factory—what the make—the size—or number of cylinders it *can* be made to produce far greater mileage with a New Stromberg Carburetor.

This is not mere say so. You're not taking a chance. It's not a matter of may be you will get more mileage—and may be you won't. You *will* absolutely.

Yours is not the first car of its kind, its size or its age that has been equipped with a New Stromberg.

The New Stromberg holds world mileage records on practically all makes of machines—under every conceivable road and climatic condition.

There isn't a car in operation that *can't* be made to give more mileage with Stromberg equipment. And by more mileage—we mean a *lot* more—*enough* more to make a sizeable hole in *your gas bills*.

We have facts galore to back up our assertions—*proof positive* that the New Stromberg *will* make a radical reduction in fuel consumption and cost on *any* car.

Come and look over this evidence of economy. Put a New Stromberg on your car for a Ten-day Test.

If it doesn't prove up—we will take it back. You've got to get more mileage—more power—more speed—better acceleration—or you'll get your money back.

As to the Number "Forty"

Forty may not be a "magic number" like three or seven and it has not the extraordinary properties which mathematicians have discovered in the number nine about which a whole volume might be written without exhausting the subject. But the manner in which it figures in both fact and fiction is certainly calculated to pique curiosity. It is impossible to discern any mathematical reason for such use of it wherefore the natural assumption is that it had its origin in some striking incident.

Parrot Stole Diamond

Parrots are interesting things. But one man down on Long Island has decided that his old polly has too many talking ways to be really practical. A few days ago he discovered the loss of his diamond scarf pin and was ready to place the matter in the hands of the police when he heard polly hanging it against the bars of her cage. He remembered of the bird strutting about on his chest when he was reposing on the couch in his living room a short time before and it was at this time that he was relieved of his valuable pin.

Educators Gather for Action on Social Unrest

Prof. Henry B. Wright, of Yale, and Dr. E. Y. Mullins, of Southern Theological Seminary, on Committee to Analyze Acute Problems of the Day.

Prof. Henry B. Wright, of Yale University and Prof. E. Y. Mullins, President of the Southern Baptist Theological Seminary, Louisville, Ky., are members of special commissions to report at the International convention of the Y. M. C. A. at Detroit, November 19 to 23.

Prof. Wright is a member of the Commission on Conservation of War Values and Dr. Mullins is a member of the Commission on the Relation of the Association to the Church.

Reshaping of old policies to meet present day needs of the nation's industrial and social unrest, determination of methods to combat the forces of Bolshevism, and consideration of a broad plan of extension to Europe and South American countries are among the many things to be brought before the convention.

CHANGES IN ORBIT OF MOON

Explains Fact That Eclipses Do Not Occur on or About Same Dates Every Year

Lunar eclipses always occur at full moon, or when the sun and moon are in opposition, and are caused by the moon passing through earth's shadow. As the moon in her course passes the sun once every month, and also places the earth between herself and the sun once a month, it is evident that if she moved in the plane of the eclipse there would be either a total or annular eclipse of the sun and a total eclipse of the moon every month. They do not happen every full moon because the moon's orbit is inclined to the ecliptic the great circle of the heavens round which the sun seems to travel from west to east in the course of a year, allowing her to pass the sun to an angle of nearly 5 degrees and 9 minutes to the north and south of his track, preventing such a frequent occurrence of eclipses. From the magnitude of the angle of inclination of her orbit to the ecliptic an eclipse can only occur on a full moon happening when the moon is at or near one of her nodes, or points where her orbit intersects the eclipse. Therefore, if the moon does not travel on the ecliptic, which would result in a lunar eclipse every full moon, it is logical to say that the moon does not follow the same orbit year after year. If the moon followed the same orbit year after year lunar eclipses would occur on or about the same dates every year, but the fact is that they might occur any full moon.—Kansas City Star.

STATE TEACHERS ELECT TODAY

By Telegraph to The Freeman

Albany, N. Y., Nov. 25.—The New York State Teachers' Association meeting here will elect officers this afternoon. Judson S. Wright, of Falconer, N. Y., is expected to be re-elected president. An effort will be made to secure the membership of New York city school teachers in the association.

Ole Hansen, mayor of Seattle, Wash., is scheduled to address the teachers tonight.

LOCAL DEATH RECORD.

Recent Deaths and Funerals of Persons in This Vicinity.

Mrs. Emma N. Parish, wife of Edward N. Parish, died Monday night after a lingering illness, age 64 years. Mrs. Parish was a woman of sterling Christian character and beloved by all who knew her. Besides her husband she leaves one son, Arthur, two brothers, Martin Schoonmaker of this city, and Walter Schoonmaker of Rensselaer, N. Y., and two sisters, Mrs. H. C. Sherman and Mrs. Florence Smith of this city. Mrs. Parish was a life long member of the Wurts Street Baptist Church and took an active part in all its work. She was past matron of Kingston Chapter, No. 155, O. E. S., also an active member of the Mystic Court of Amaranth, the Colonial Rebekah Lodge and the Helping Hand Society. Notice of funeral hereafter.

Mrs. Elsie Launt Elting, widow of Richard Elting, died at the home of her son, W. C. Derby Elting, on Canal street, Ellenville on Sunday afternoon at 5.30 o'clock at the age of 56 years. Mrs. Elting, well and favorably known, was born at Walton, N. Y., a daughter of the late P. Philip and Julia Launt, well known citizens throughout Delaware county. Mrs. Elting came to reside in Ellenville as the bride of Mr. Elting, hotel proprietor of the village. When the hotel was sold they resided in Elting Court until Mr. Elting's death. Mrs. Elting was called upon to pass through another great sorrow when in February last her son, Richard Elting, died following an operation. She bore this great sorrow with wonderful fortitude for she was in delicate health at that time. About three weeks ago she was taken ill at her home on Market street, and was taken upon advice of her physician, Dr. B. F. Neal, to the son's home, where she died. Mrs. Elting was a woman of charming personality, a devoted mother, a very true friend with a large circle of friends. Mrs. Elting is survived by one daughter, Miss Grace Elting, a teacher in the schools at Freeport, L. I., and a little grandson, Richard Elting, and by five step children, Mrs. George Terwilliger of Chicago, Ill., Tuthill Elting and Mrs. Albert G. Boland of New York, and Mrs. Justin U. Schoonmaker and W. C. Derby Elting of Ellenville. The funeral will be held from the son's home on Wednesday at 12 o'clock. The service will be conducted by Rev. H. P. Hobson, rector of St. John's Church, of which deceased was a devoted member. Interment in the Elting family plot in the Fantinekill Cemetery.

St. Peter's to Play "Kaseys."

The basketball game between members of the Young Men's Glee Club of St. Peter's parish held last Friday evening proved very entertaining. Those who played: Team No. 1—Otto Thurin and Frank Bailey, forwards; George Dittmar, center; Joseph Belchert and John Spader, guards. Team No. 2—Frank Koenig and "Slim" McAndrew, forwards; Joseph Koenig, center; "Doc" Wolf and "Red" McAndrew, guards. Next Friday evening the St. Peter's basketball five will play the famous "Kasey" team of the local Knights of Columbus in St. Peter's School Hall.

Rubber was in demand, selling 1⅜ higher at 123½. Dealings in the oil, copper and railroad stocks were quiet with price changes to fractionally higher levels.

American Express 7½ points to 100; Atlantic Gulf four points to 172; Marine Common 1 point to 53⅜ and Steel Common held around 105¾.

CHINA REJOICES AT TREATY REJECTION

By Telegraph to The Freeman.

Shanghai, China, Nov. 25.—Prominent Chinese officials and Chinese newspapers united today in lauding the United States senate for rejecting the peace treaty, which automatically carries with it refusal to recognize the grant of Shantung Peninsula to Japan.

"It is reaffirmation of America's stand in behalf of justice and right for the weaker nations," declared Dr. Sun Yet Sen, first provisional president of the Chinese republic.

"It is a reassertion of the aims and ideals for which the United States entered the war. But while China rejoices, Japan grieves."

Many political and economic organizations have united and adopted resolutions of gratitude for "America's guardianship of China's sovereignty."

The China Press, a newspaper printed here in English in behalf of closer American and Chinese relations, in its comment, said.

"League of nations or no league Japan will no longer be permitted to pursue the intolerable course of military aggression she has followed in recent years against China."

The Shunpao, the oldest Chinese newspaper, calls the American senate's action, "a ray of hope for the Chinese people."

Americans in the Far East are said to be upholding the action of the American senate, having long felt that China had been wronged in Paris.

On the other hand the Japanese press is bitterly criticizing the American senate and the American people.

"The United States and Great Britain are face to face like two angry tigers," said the Osaka Mainichi, in its comment.

MET THE PRINCE.

Saugerties Girl on Mayor Hylan's Committee.

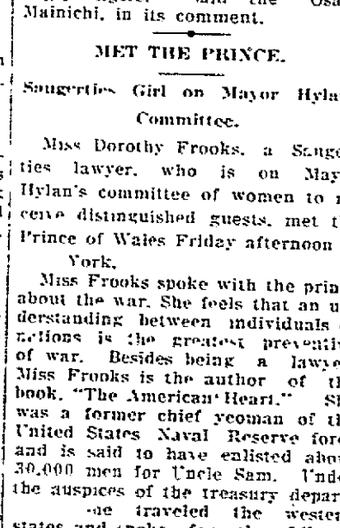
Miss Dorothy Frooks, a Saugerties lawyer, who is on Mayor Hylan's committee of women to receive distinguished guests, met the Prince of Wales Friday afternoon in York.

Miss Frooks spoke with the prince about the war. She feels that an understanding between individuals of nations is the greatest preventive of war. Besides being a lawyer, Miss Frooks is the author of the book, "The American Heart." She was a former chief yeoman of the United States Naval Reserve force and is said to have enlisted about 30,000 men for Uncle Sam. Under the auspices of the treasury department she traveled the western states and spoke for the Liberty Loan. For her splendid work, she was presented with a solid gold medal at Washington, D. C.

Miss Frooks will shortly return to her home at Saugerties.

Fair Street Reformed Entertainment

An entertainment entitled, "The Minister's Dream," will be given in the lecture room of the Fair Street Reformed Church, Friday evening, November 28. Watch Wednesday's paper for the program.



AT THE THEATRES.

Mary Pickford Drew Tremendous Throngs To Keeney's.

With laughter and life in every scene, this latest of Mary Pickford's successes is happy at start and finish, a sweet clean picture with a single sad moment and the delighted audiences at Keeney's yesterday acclaimed "The Hoodlum," her greatest success. This excellent production will be shown at seven and nine tonight and at four more performances tomorrow.

For Thanksgiving Day we have secured a photoplay that has already made a sensational start in the big temples of the motion pictures of New York city and praised to the top by every newspaper critic in the big town. It is Louis Bennison, famous for his smile, in the "Misfit Earl." You can imagine how this big lanky cowboy makes up in English society after a life in the far wild and wooly west. It is comedy through and through and bound to make your holiday a very happy one.

Like a picture with lots of speed and thrills, a real picture in which the hero not only takes his life in his hands once but half a dozen times or so? If you like this sort of a picture and who by the way doesn't, you're sure going to like "The Roaring Road," the picture that will be shown at the Auditorium tonight. Tomorrow, Dixie Lee in "Where Bonds are Loosed."

When "The Lady in Red," was presented for several months at the Lyric Theatre, New York, last season, it being booked to appear at the Kingston Opera House Saturday night only, one of the New York critics said of it that it was a "whirling, whizzing, terpsichorean triumph; that it is a "breezy, buoyant, musical comedy success." There will be no matinee.

The announcement of the engagement of Margaret Anglin will be welcome news to playgoers who remember her delightful comedy "Billeted" in which she appeared last season. She is scheduled to appear at the Kingston Opera House Friday night and she will be seen in a different type of play from that of last season. The title of the play is "The Woman of Bronze," the work of two distinguished French authors. Henry Kistemaecker and Eugene Delard. They have provided an interesting character for Miss Anglin to enact, one in which her strong emotional powers are given full sway. The action of the play is intense, the dialogue brilliant and the theme is modern. "The Woman of Bronze" has been selected with her usual discrimination. Those in the cast include Fred Eric, Edna Walton, Langdon Bruce, Harriet Sterling, Gerald Hamer, Nina Morris and others. Seats may be had tomorrow.

No. 3 Now Stops at Rhinecliff.

With the change of time which went in effect on the New York Central Sunday, November 23, the fast express train, No. 3, which leaves New York at 9:30 a. m. for all principal points west, now steps at Rhinecliff, arriving at 11:42 a. m. This is a great improvement to the service and will be a very good train for patrons wishing to make stops at principal stations. This train arrives at Albany, 12:50 p. m., stopping at Schenectady, Amsterdam, Utica, Syracuse, Rochester, Batavia, Buffalo and points west. It carries through coaches for Buffalo, parlor cars, diner and sleepers for Chicago. Also parlor car for Montreal via Rutland and D. & H. Reservations on this train may be had from the ticket agent at Rhinecliff.

What Ennist is Doing.

SEARCH AND SEIZURE

Granted by Justice Morschauser Against Middletown Hotel.

Supreme Court Justice Joseph Morschauser granted a search and seizure order Saturday in the case of the people against the Globe Hotel, 420 North street, Middletown. Two special agents of the state department of excise said that on Saturday, November 8, they entered the building known as the Globe Hotel and ordered two bottles of beer. The bartender served them with two bottles of beer, which he explained was 2.75 per cent and that he was giving them that in lieu of near beer which he had had a quantity of but it had gone stale, they alleged. The agents then showed the bartender their authority, and removed 63 cases, each case containing 24 bottles of 2.75 per cent beer and three barrels of the same liquor.

In another case of similar type the same court order was issued. This was in the case against the Wallkill House of Middletown. The testimony of the state agents was the same except that they said the liquor was hard cider instead of beer.

He Knew.

The teacher had spent twenty minutes impressing on her pupils the correct pronunciation of the word "knew." The following morning she wanted to find out if the children remembered, so she turned to one little boy suddenly and demanded: "What do you see on the mantlepiece at home, Jackie?" "Father's feet, miss!" came the prompt reply.
